## What Is 30 Minute List?

30 Minute List is a brand new viral money making and list building site designed for any level of online experience. Even complete beginners can build their list and make money by joining 30 Minute List and following the simple setup steps.

All that is required is an autoresponder to capture email addresses and you can be up and running in 30 minutes. Free autoresponders are available online but the one that we recommend is [Traffic Wave](#).

The viral nature of 30 Minute List means it is possible to build your list 5 times faster than using conventional methods. Once you pass 4 referrals you really begin to benefit from the viral nature of the site.

Depending on your membership level you can receive up to 100% instant commissions on your referrals upgrades.

If you are in a hurry to sign up go [here....](#)

Make sure you come back so you know exactly how to benefit from your membership at 30 Minute List!

## First Time Login

The first time you login you will use the password 30minlist. You will be prompted to change it to something more memorable to you. Keep your login details safe and if you forget your password you can use the 'forgot password' link.

You will then be prompted to add your Paypal email address. This is important if you want to receive instant commissions.

## Where Do I Start?

Sometime you join a membership site and it is not clear exactly how to set things up. Stuart, the owner of 30 Minute List has made it really easy for you to follow along and set things up quickly.

If you go off at a tangent and skip parts you will find it isn't as easy as it should be. Follow the simple instructions and you will be up and running within 30 minutes. To make it completely fool proof there is a section in the member's area called 'Start Here'.

I know you will be itching to get going earning money and building your list but you will get a better understanding of what is required by watching Stuart's welcome video.

Underneath the welcome video you will see any site news that might be of interest to you and a quick start guide.

Step 1 on the quick start guide is "Edit My Details"

## Edit My Details

This is the area where you add your photo and autoresponder code. **It is important you add your code before you refer anyone or you won't get them on your list.**

It is this part which some members struggle with but if you are going to build a list of any decent size it is something you simply must get to grips with.

Below is a screenshot of the form to submit your code to.....

**Autoresponder code:**  
**Use this URL for your Thank You Page/ Redirect URL:**

```

```

[If you don't have an autoresponder account, we recommend using AWeber](#)

Once you add your code make sure you hit the preview button to make sure it's working OK. Once satisfied everything is OK you can click on 'update'.

In the training videos section Stuart shows you how to set up your autoresponder using Aweber, GetResponse and [Traffic Wave](#).

If your autoresponder allows you to create html forms then it is a simple matter of creating the code and adding it to the form provided.

When creating your new list it is important that you send new subscribers to <http://30minutelist.com/signup.php>. Watch this part of the video carefully as it really is important!

If you upgraded to an Elite, JV Partner or Founding Member, you will also go here to edit your "Exit Pop URL" and other details. You can also go here to change your password.

Step 2 on the quick start guide is "Setup Ads".

## Setup Ads

In this section you can set up your ads using your existing credits or purchase more if required.
